Soft skills : Leadership, Time Management, Adaptability, Teamwork

ACADEMIC PROJECTS

Personalized Financial Advisory System

- Developed a ML based financial advisory system that analyzes user income, spendings and risk profile
- Contributed to build the model and backend coding to generate investment recommendations (team of 4)
- Tech Stack: Python, Flask, Scikit-learn, Pandas, NumPy

Loan Analysis Dashboard– Power BI

- Built an interactive Power BI dashboard to visualize loan distribution, defaults, high-risk customers.
- designed and implemented the complete project, including data cleaning and dashboard creation.
- Key Skills: Power BI, Data Cleaning, Data Visualization, KPI Analysis.

Design and Analysis of SIW Antenna for THz Applications

- Engineered a SIW-based antenna array with harmonic suppression using power divider, graphene filter.
- Designed base antenna structure for next-generation 6G applications (Team of 4)
- Skills and Tools used: CST Studio, SIW Technology, Antenna Array
